The Honorable Mario Diaz-Balart  
Ranking Member  
House THUD Subcommittee  
1036 Longworth Office Building  
Washington, DC 20515

Dear Chairman Leahy, Vice Chairman Shelby, Chairwoman DeLauro, Ranking Member Granger, Chairman Schatz, Ranking Member Collins, Chairman Price, and Ranking Member Diaz-Balart:

### **We Call on Congress to Provide at least \$4.2 Billion for CDBG in FY 2023**

We, the undersigned national, state, and local organizations urge Congress to provide at least \$4.2 billion for the CDBG program in FY 2023. CDBG reaches every corner of the country from urban cities to rural towns and populations in between. Funding is directed to all states, territories, and congressional districts. It remains one of the most important resources for state and local governments and their partners to use in devising flexible solutions to meet community development needs.

CDBG provides resources to states and localities to support stronger and more resilient communities for low- and moderate-income people. Nearly 1,250 state and local governments receive annual CDBG allocations to support housing rehabilitation programs, public infrastructure projects, small business assistance, emergency housing assistance, and a broad range of public service programming.

From 2005 to 2020, CDBG facilitated the creation and retention of 454,961 economic development related jobs, contributed to infrastructure developments benefitting approximately 538 million persons, assisted over 837 million persons through public service activities, and met housing needs of over 1.6 million households.<sup>1</sup> The program also demonstrates a high return-on-investment for taxpayer dollars. In 2020, every dollar of CDBG invested led to \$3.64 from other public and private sources; this totaled \$3.41 billion leveraged across 5,700 CDBG projects.<sup>2</sup>

CDBG helps preserve affordable housing and expand affordable housing stock for low- and moderate-income people. In 2021, CDBG grantees spent over \$362 million to rehabilitate homes for low- and moderate-income people. This activity preserves affordable housing, addresses unsafe living conditions, lowers housing costs through energy efficiency improvements, allows seniors to age in place, and provides accessibility improvements for persons with disabilities. Likewise, CDBG grantees spent over \$86 million in 2021 to rehabilitate multifamily properties to provide decent, safe, affordable housing to a multitude of low-income renters.

As the foundation for commerce, social, physical, and environmental activities, infrastructure maintains a prominent role in community well-being. CDBG contributes extensively to public facilities and improvements (infrastructure). Roads, streets, and other infrastructure improvements connect people to neighborhoods, businesses, parks, services, and jobs. Communities use CDBG to provide greater accessibility, mobility, and connectivity by funding these improvements. One of the largest investments of CDBG is public utility development specifically for water and sewer improvements as well as stormwater drainage for low- and moderate-income communities.

CDBG funds can be used to provide services to specific populations. These public services strengthen people and communities. CDBG grantees can use up to 15% of their annual allocation for public services to address a wide range of community needs. These services include employment training, meals and other services to the elderly, services for abused and neglected children, aid to local food banks, youth and senior services, and support for many other community services. Services are provided by large and small and public and private organizations in diverse settings such as schools, community facilities and other venues.

CDBG economic development activities help communities tackle economic distress, stimulate private investment, and spur business growth. Small businesses are the cornerstone of the American economy and CDBG helps socially and economically challenged small businesses start and grow. Likewise, CDBG investment in large-scale

---

<sup>1</sup> U.S. Department of Housing and Urban Development, FY2022 Budget – Congressional Justification, Community Development Fund, May 28, 2021: [https://www.hud.gov/sites/dfiles/CFO/documents/18\\_2022CJ-CommunityDevelopmentFund.pdf](https://www.hud.gov/sites/dfiles/CFO/documents/18_2022CJ-CommunityDevelopmentFund.pdf).

<sup>2</sup>U.S. Department of Housing and Urban Development, FY2023 Budget – Congressional Justification, Community Development Fund, March 28, 2022: [https://www.hud.gov/sites/dfiles/CFO/documents/2023\\_CJ\\_Program\\_-\\_Community\\_Development\\_Fund\\_updated.pdf](https://www.hud.gov/sites/dfiles/CFO/documents/2023_CJ_Program_-_Community_Development_Fund_updated.pdf).

commercial projects leads to area renewal, job creation and retention, and retention or creation of important businesses that serve to anchor a community and provide important services.

One of CDBG's greatest strengths is its ability to leverage other investments. As a flexible resource designed to accommodate local needs, CDBG often serves to match other sources of public and private funds. Program resources also help projects and services become reality providing gap funding to meet budget needs.

The CDBG program has meaningful impact in low- and moderate-income communities - advancing equity, providing a better quality of life for the program beneficiaries, and providing needed improvements and services to neighborhoods. While meaningful to communities nationwide, CDBG has experienced major cuts over time. Annual funding has declined substantially in recent decades with the program's latest appropriated level - \$3.3 billion in FY22 – \$150 million less than FY21 and far less than its highest mark of \$4.5 billion in FY95. As a result, fewer annual funds are available to drive local solutions to varying public-wide challenges.

**CDBG History: Funding, Inflation & the Number of Allocations**

\*Each Total Annual Allocation from 1975 to 2020 has been adjusted for inflation to the value of the dollar in 2020 by using the annual average Consumer Price Index for the corresponding years. <http://www.bls.gov/cpi>.  
 \*\* For the years 1975 through 1982, the data include 51 annual allocations for the Small Cities program, the predecessor to the State CDBG Program, which later began in 1983.  
 \*\* The number of actual grant agreements executed by HUD is typically less than the number of allocations because grantees form approximately 35 joint grant agreements per year.

We call on Congress to provide robust funding for CDBG by providing at least \$4.2 billion for the program in FY 2023. Please feel free to contact Vicki Watson, National Community Development Association, [vwatson@ncdaonline.org](mailto:vwatson@ncdaonline.org) or Josh Shumaker, Council of State Community Development Agencies, [jshumaker@coscda.org](mailto:jshumaker@coscda.org) with any questions.
