

Building a more resilient future.

Tidal Basin, a Michael Baker International company, is an industry-leading program management consulting firm providing integrated technology, resilience, and emergency management solutions that help organizations and communities be stronger than before.

Our comprehensive expertise includes:

- Emergency and resilience planning
- Turn-key logistics and response support
- Grant and financial program management
- HUD CDBG-DR and FEMA specialists
- Customer relations and contact center solutions

Whether your goal is to improve emergency response and recovery, strengthen infrastructure, enhance your community's advanced technology capabilities, or develop a stronger program management approach, every interaction you have with Tidal Basin will lead you to a more resilient future.
