4

Challenges Facing Georgia in 2016

- Homegrown Siloed HMIS Vendor quit the business
- Procure a new software
- Organize new governance
- Migrate historical data
- All policies re-written
- Kick off to go-live was less than 4 months

5

GA HMIS Governance Structure

6

GA HMIS Steering Committee – Purpose & Authority

- The By-Laws describe the authority of the GA HMIS Steering Committee and the governance roles, responsibilities, and relationship of the participating CoCs and HMIS Lead Agency.
- Because the CoCs share one HMIS, the By-Laws highlight collaborative and transparent management and uniform priorities and standards as important governance principles.
- The Committee serves the eight CoCs collectively known as the GA HMIS Collaborative.
- Each CoC gets 1 vote and two members on the Steering Committee
- Subcommittees carry out the work of the steering committee
- The Collaborative operates the GA HMIS that records and stores client-level information concerning people who use homeless housing and supportive services and people who receive assistance because they are at risk of homelessness.

7

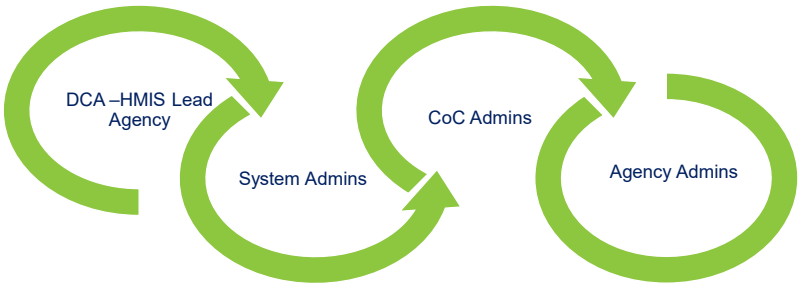

How the Governance Structure Supports the Shared HMIS

- Common Standards
- Transparency
- Shared Accountability
- Uniform Privacy Policy
- Increased ability for Data Sharing
- Planning & Measurement

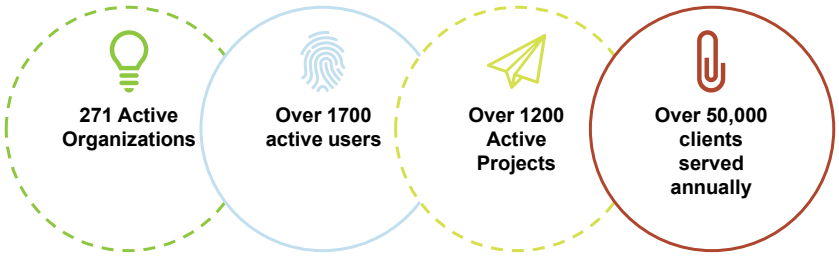

8

GA HMIS Support Structure

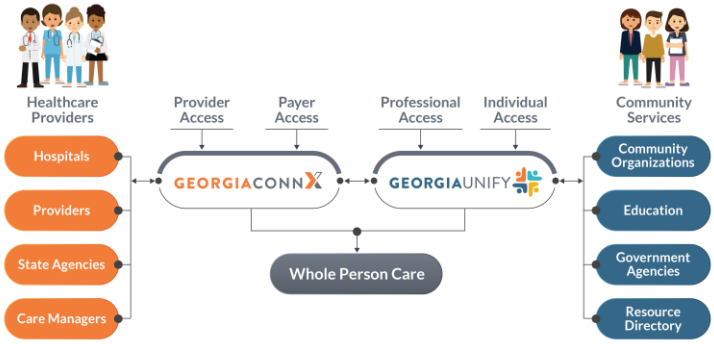

9

Scope of the Statewide HMIS
